Two workshops available:
New to High School | 10:00 am – 11:30 am
Already in High School | 12:00 pm – 1:30 pm

THE MATHS LINK

THE MATHS PLAYBOOK

Practical maths learning strategies for students entering or currently attending secondary school.

An interactive workshop designed to build confidence and independence in mathematics. Through practical activities, students will develop strategies for recording and simplifying mathematical concepts, using AI to support learning, and preparing effectively for tests and assessments.
Suitable for students of all abilities and learning backgrounds.

Friday, 15 January 2027
REALM Library, Ringwood

What will students learn?

✓ **Note-taking skills:** Recording worked examples and summarising key mathematical concepts.
✓ **Using AI effectively:** Using AI to clarify challenging mathematical concepts, support homework and strengthen understanding.
✓ **Test-taking strategies:** Preparing for assessments, creating effective reference sheets and approaching test questions with confidence.
✓ **Organisation and time management:** Using diaries, managing due dates and planning study time effectively.

In-person workshop: $100 per student

Includes a take-home Maths Playbook kit, stationery, snacks and drinks.
Online workshop pricing and details available upon enquiry.
